

Sound Becomes Waves

Iris

Revolves
Through another turn
Gravity has once again freed the setting sun

As sound becomes waves
They reverse in the atmosphere
Light fades
Back to where it first appeared

Dry sands
In the desert lands
Once it flowed green
I guess you get it while you can

As sound becomes waves
They reverse in the atmosphere
Light fades
Back to where it first appeared

Into this world of life
Then from this world we're thrown
Sent here to seek and find
Some place we've always known
