

Sundowner

Iris

Symptoms caught in photographs
Did I make a total scense?
So careful when I walk in between

A face so revealing
Nothing unseen
So dark and unfeeling
My frequency

[Chorus]
I can't feel the sun anymore
It's darker that I've ever seen before

It's like I told you
You know back long before

I would even the score

I have no good reason
To feel this way
Uneasy degrees of my desperate state

[Chorus]

[Chorus 2]
I can't feel the sun anymore
It's darker that I've ever seen before
I'm not so sure what life has in store
It's darker that I've ever seen before
