

The Way I Live My Life

Iris

Distant world are you the home I have?
My orbit has me thrown
To the boundaries of the mind

We're pulling in on every rope we're thrown
And crossing to the time
When direction leads the willing to the light

I lose every bit of my heart
But the words don't speak for the feelings under
Tune into the program over the seas of my heart
To the way I live my life

Sophisticated love surrounding us
And though it grows undear
Holds the silver in the end
It makes the most of the final years we have my friend

I lose every bit of my heart
But the words don't speak for the feelings under
Tune into the program over the seas of my heart
To the way I live my life
