I'm not easy to love  
I'm the first to ruin everything  
Ruin everything  
With a slip of the tongue  
I land a cut I didn't even mean  
And I know it stings  
There's a truth in my eyes  
That I don't let everybody see  
But it's part of me  
Take you places with no light  
Here goes baby hold on tight

Pre

If I let you love me

Hook

You gotta dive in the deep end  
Jump in my skin  
If you wanna get to know me then you gotta know  
I tried to drown all my demons  
But they know how to swim  
If you wanna get to know me then you gotta know, them  
If you wanna get to know me then you gotta know  
If you wanna get to know me then you gotta know

Verse 2

You've got hurt of your own  
That's the part of you that I wanna know  
When you let me close  
You show yours then I'll show mine  
Come on babe let's take the ride
