

# Today

Iris

## Verse 1

Somewhere to hide  
I see you runnin for the corner tonight  
Off to the side  
You pray you won't be seen by  
Too many eyes  
Something is wrong  
You talk in whispers like you're not even here

## Pre

Now don't you lose yourself  
Don't disappear  
Don't let the time run out  
Stuck in your fears

## Hook

Because life's too short  
Tomorrow isn't promised  
Sun comes up  
Start dancing before it goes away  
Hold on every second  
While we got today ( don't wait )  
Because life's too short  
Don't fade into the darkness  
Sun comes up  
Step out and show em everything  
Hold on every second while we got today  
(Don't wait )

## Verse 2

I know that you're  
One of the lucky ones with fire in your blood  
You hold the cure  
But you don't even dare to open the door  
What's going on  
Look in the mirror and don't like what you see

## Pre

Now don't you lose yourself  
Don't disappear  
Don't let the time run out  
Stuck in your fears

## Hook 2x

Because life's too short  
Tomorrow isn't promised  
Sun comes up  
Start dancing before it goes away  
Hold on every second  
While we got today ( don't wait )  
Because life's too short

Don't fade into the darkness  
Sun comes up  
Step out and show em everything  
Hold on every second while we got today  
(Don't wait )
