X-Wires

Iris

Get set
I'm coming out to meet you
Wired like an insect
Echoing with intent

Don't know where to go
Don't know where to hide
I'm all wrong in the wires

Mercy
Mercy for the weakened
Now I perish or repent
Thrust into the deep end again

Don't know where to go
Don't know where to hide

I'm all wrong in the wires

I cast no shadow
As the light requires
All is dark in the wires

You've said all along
Why fail to be strong
You say you know I know
That I fail as I go alone

Don't know where to go
Don't know where to hide
I'm all wrong in the wires
