Another Lonely Heart

Irma Thomas

Another walk alone down my one way street
Another day my phone doesn't ring
I was certain you were true when you kissed me in the dark
Now I'm just another lonely heart

Another night I cry and I worry to my friends
Another night I wish and I wonder where you've been
I was certain you were true when you held me in your arms
Now I'm just another lonely heart

Disappointment knows me well
I can try to run and hide but he'll find me sure as hell
Another movie show all alone in the dark
I'm just another lonely heart

Disappointment knows me well
I can try to run and hide but he'll find me sure as hell
I was certain you were true when our light shone like a star
Oh, now I'm just another lonely heart
Oh, I'm just another lonely heart
