# Baby Don't Look Down

**Irma Thomas**

We got to the top the hard way
We pushed a lot of people around
And you got what you wanted now, so baby, don't look down
Baby, don't look down
Any fool could see you really shook up this town
Your time will come someday
You gonna fall a long, long way
So baby, don't look down
No, no, don't look down

You hurt a lot of people
For getting up to where you are
You forgot the one who loves you
But you've done alright so far
So baby, don't look down, please
It's been a long, long way to the cold, cold ground
Come time to pay your dues
It's gonna be real bad news
So baby, don't look down
Oh, no, don't look down

So now you think you're happy and a smile lights up your face
But remember what I told you, boy
The top's a mighty lonesome place
So, baby, don't look down
You left a lot of broken hearts all around
You're gonna pay for all you've done
And it sure won't be much fun
So baby, don't look down
Uh, uh, don't look down
Oh, baby, don't look down
Not now, don't look down
Baby, don't look down
Not now, don't look down
