

Times Have Changed

Irma Thomas

There was a time
When you could snap your fingers
And I'd come running
Running to you
But try it now
Now, come on, try it now
And you're gonna find
When you do

That times have changed (Times have changed)
You can't hurt me like before (Times have changed)
Times have changed (Times have changed)
And I don't love you anymore (Times have changed)

There was a time
When I would smile and take the pain
When you would tear my dreams apart
Or break my heart in two
But try it now
Come on, try it now
And you're gonna find
That when you do

That times have changed (Times have changed)
You can't hurt me like before (Times have changed)
Times have changed (Times have changed)
And I just don't love you anymore (Times have changed)

Oh, somebody new I met
Made me forget
The memories we knew
That broken heart I got from you
Try it now (Times have changed)
'Cause you know that times have changed (Times have changed)
You know that times have changed (Times have changed)
You know that times have changed (Times have changed)
Oh, times have changed (Times have changed)
