

Beyond the Milky Way

Iron Butterfly

I loved you yesterday
I loved you today
My love tomorrow will grow to stay
My love is oh so deep
My love is oh so high
No bottom, no sky

In the heavens above and beyond the Milky Way
Can hold all of my love for you
For you

If we could fly away
And lay among the stars each day
With the heavens all around us
And travel the universe
Turning our hands and hearts you'll see
Our love was meant to be

In the heavens above and beyond the milky way
Can hold all of my love for you
For you
