

High on a Mountain Top

Iron Butterfly

Never knowing the world without you
Never knowing though ill never doubt you
Never knowing just where you come from
Never knowing you'll be someone with you

High on a mountain top
Where only I could see
I hold a love for you
And you would come to find
Once upon my mind
Just a little
The hole in my life

Never knowing how hard I love you
Never knowing if my hearts above you
Never knowing how hard we tried
Never knowing if ill live or die with you

High on a mountain top
The hole in my life
High on a mountain top
