

Iron Eagle

Iron Fire

There is blood on the streets
There is blood on our hands
We'll keep on pushing to get out of this trance
Salvation to come, damnation will strike
The hammer of justice will light up tonight

Breaking down the tyranny of lies
Building up the anarchy demise
Storming the gates of Babylon

All will kneel down to the Iron Eagle
Taking the crown to the holy land
All will kneel down to the Iron Eagle
Smashing to the ground in the desert sand

The Iron Eagle

Denying the blame, walking in shame
We have to surpass what has brought up this flame
Mankind will fall into a sea of despair
We keep on sliding like no one really cares

Breaking down the tyranny of lies
Building up the anarchy demise
Storming the gates of Babylon

All will kneel down to the Iron Eagle
Taking the crown to the holy land
All will kneel down to the Iron Eagle
Smashing to the ground in the desert sand

Breaking down the tyranny of lies
Building up the anarchy demise
Storming the gates of Babylon

All will kneel down to the Iron Eagle
Taking the crown to the holy land
All will kneel down to the Iron Eagle
Smashing to the ground in the desert sand

It's the Iron Eagle, it's the Iron Eagle
Storming the gates of Babylon
It's the Iron Eagle, it's the Iron Eagle
The Iron Eagle coming your way
