

# A Tale from Down Below

Iron Savior

Down below the city  
Where the light is cold and dim  
Creatures without name  
Are paying for the sin  
Not dead nor alive  
In a dark and toxic reign  
Infected by the virus  
We failed to reach the aim

Damned to walk the night  
Access to the world above denied  
Lost without a cure  
But as long as we are standing  
I'll endure

On that very day  
God has turned away  
Even though I pray  
Hear my words

Heal me  
Heal my scars  
I'm longing for peace  
Heal me  
Heal my pain  
Let me walk the daylight again

We challenged the Creation  
In the hope to reveal  
The secrets of the Maker  
When the agent broke the seal  
Immortal we are suffering  
For opening the locks  
To see what is concealed  
Inside Pandora's box

And though we have  
To walk the night  
With access to the life above  
Denied

Can't you hear my cry  
Let us live or die  
Longing for salvation  
Set us free

Heal me
