

## Desert Plains

Iron Savior

Full moon is rising  
The sky is black  
I need your call I'm coming back  
The road is straight cast  
Wind's in my eyes  
The engine roars between my thighs

From desert plains I bring you love  
From desert plains I bring you love

Wild mountain thunder  
Echoes my quest  
My body aches but I'll not rest  
Quartz light to guide me  
Till sunrise leads  
My passion screams, my heart it bleeds

From desert plains I bring you love  
From desert plains I bring you love

Then in the distance  
I see you stand  
On the horizon you raise your hand  
In burning rubber  
I end my quest  
You fall into my arms at last

From desert plains I bring you love  
From desert plains I bring you love
