

# Never Stop Believing

Iron Savior

From darkest night to brightest day  
Felicity and agony  
Life and death, we've seen it all  
Tears of joy, tears of grief  
Confidence and disbelieve  
Welcome and farewell, we've had it all

Side by side  
We've been walking through the fires  
Back to back  
We took it always higher

We'll never stop believing  
Always keep on dreaming  
We'll keep the faith and carry on  
Together we'll be strong  
Never stop believing  
Always keep on dreaming  
I'll be there (I'll be there)  
To hold you and catch you when you fall

The demon comes, the demon goes  
What will be whoever knows  
We'll take the future in our hands

Side by side  
We'll be walking through the fires  
Back to back  
We'll take it even higher

Cause we'll never stop believing  
Always keep on dreaming  
Keep the faith and carry on  
Together we'll be strong  
Never stop believing  
Always keep on dreaming  
I'll be there (I'll be there)  
To hold you and catch you when you fall

Sometimes when I'm all alone  
I think of you and me  
The love, joy and sweet caress  
We are family  
I'd climb the highest mountains  
I'd cross the deepest sea  
To shelter and protect you  
Cause we are family  
And even if I'm gone someday  
My love is living on  
(I will be there)  
I'll make you going on  
(I will be there)  
Love is living on forevermore

Never stop believing  
Always keep on dreaming  
Keep the faith and carry on

Together we'll be strong  
Never stop believing  
Always keep on dreaming  
I'll be there (I'll be there)  
To hold you and catch you when you fall
