

R.U. Ready

Iron Savior

Ninteensixtyseven
A thunder in the night
A blazing star played his guitar and metal did ignite
A Zeppelin was leaving ground, heading for the top
Turned the world upside down in a sonic shock
R.U. ready to rock?

A whole generation born to be wild
Breaking the rules
Touching the sky
Never to die

Rockin' on
Until the night is gone
Rockin' hard
Until the morning sun
Rockin' on
For you and me and everyone
It ain't no matter of the blood
Just say you're ready to rock
Tell me you're ready to rock 'n roll

Smoke on te water
A rainbow rising up
And the gods of metal spoke
"Take that to the top and make it heavy metal!"

Breaking the law on the highway to hell
Heavy metal thunder
Putting the world under a spell

Rockin' on
Until the night is gone
Rockin' hard
Until the morning sun
Rockin' on
For you and me and everyone
It ain't no matter of the blood
Just say you're ready to rock

Rockin' on
Until the night is gone
Rockin' hard
Until the morning sun
Rockin' on
For you and me and everyone
It ain't no matter of the blood
Just keep rockin' on
Until the night is gone
Born to be wild
And believe me
It ain't no matter of the blood
Just say you're ready to rock

Tell me you're ready to rock
