

# Raising Hell

Iron Savior

Burning wheels and shifting gears  
And the night is young  
The drinks are cold the music's loud  
Just like loaded guns  
We're heading out

Turning on the stereo  
Play the favorite song  
We're riding high and overdrive  
Watch out here we come  
We're heading out  
We're heading out

Those were the days when metal came our ways  
Making me stronger day by day  
We've been the warriors to rule the gleaming city lights  
Metal all the night

We're raising hell  
Raising hell, yeah  
Hellfire all night long  
Raising hell  
Raising hell  
Raising hell  
Raising hell  
Raising hellfire all night long  
Till the night is gone

Scorching heat, breathing fire  
Banging to the beat  
Battle to the metal, you gotta get up upon your feet  
We're heading out  
We're heading out

Those were the days when metal came our ways  
Making me stronger day by day  
We've been the warriors to rule the gleaming city lights  
Metal on all minds

We're raising hell  
Raising hell  
Raising hellfire all night long  
Raising hell  
Raising hell  
Raising hell  
Raising hell  
Raising hellfire all night long  
Till the night is gone

Those were the days when metal came our way  
Making me stronger day by day  
We've been the warriors to rule the gleaming city lights  
Metal all our minds

We're raising hell  
Raising hell, yeah  
Hellfire all night long

Raising hell  
Raising hell  
Raising hell  
Raising hell  
Raising hellfire all night long  
Till the night is gone

We're raising hell...
