

# Roaring Thunder

Iron Savior

Hordes of rage and bigotry  
March upon the land  
A tempest of insanity  
Raised by sacred hand  
Heaven sent they bath in blood  
To worship their believe  
Misled and seduced  
They don't see, they get abused

Fool crusaders  
Knowing no remorse  
We'll bring you to a halt  
With unrelenting force  
With all our might

(Roaring thunder)  
Roaring thunder  
Is pounding at the worlds  
(Torn asunder)  
Torn asunder  
As the holy fire burns  
(Blind believers)  
Blind believers  
Are marching in the streets  
Worlds will collide  
For freedom or defeat

Bold and grim we'll hold the line  
Determined to oppose  
For mankind and the galaxy  
They'll never break our rows

Holy war is on the edge  
The creature is released  
Men on his feast mind the venom of the beast

False messiah  
You shall never win  
We came here to retaliate  
Upon you for the sins  
The sins and the blood
