

## The Battle

Iron Savior

Reflections of light paint the horizon  
Silver and weak he is glowing  
Beauty arises in front of my eyes  
Where are we going  
My heart wants to weep  
The word is goodbye  
Will I return  
Oh, will I see it again  
Will I live - will I die

The land has been bleeding in war  
Nothing will be like it has been before  
A moment in silence in the dawn  
Facing the upcoming storm

So let the battle - let the battle begin  
Armies are marching against us tonight  
In unity we stand to fight

A shiver is sent down my spine  
As we await the final attack  
Wings launch, weapons load  
Cold sweat runs down the back of my neck

We'll break through the gate  
The sky we'll invade  
The tyrant will burn and the world it will turn  
Tonight is the night  
Darkness or light  
Freedom will be our guide

So let the battle - let the battle begin  
The blade of reprisal is ready to strike  
In unity we stand to fight - to fight!

So let the battle - let the battle begin  
Armies are marching against us tonight  
In unity we stand to fight

So let the battle - let the battle begin  
The blade of reprisal is ready to strike  
In unity we stand to fight
