

Wade Across The Water

Iron & Wine

I saw you wade across the river
Winter coat across your shoulders
Callin' out, what did you say?
If I wade across the water
When I rise will you be there
Open-armed or turned the other way?

I saw you wade across the river
Handkerchief in your fingers
Just in case, well, just in case
If I lose to the water
Lose it all for you lover
You were all I wanted anyway
