

Walk Alone

Isaac Carree

Changes, everything's opposite of what same is
All these changes, whatever He wants of me I'm okay with
You don't need no help as long as you got Him
You just gotta know everybody can't go

You ain't making me better
Then you just bring me
Down, down, down
Down, down, down

You ain't making me better
Then you just bring me
Down, down, down
Down, down, down

Why you're hanging onto every word
We've both been saying?
What ya name is? You know who you are,
Stop bothering, wishing on a star, trust your heart, yeah

You don't need no help as long as you got Him
You just gotta know everybody can't go

You ain't making me better
Then you just bring me
Down, down, down
Down, down, down

You ain't making me better
Then you just bring me
Down, down, down
Down, down, down

Oh, why you gon' get up?
Let me introduce you to the man that I've become
Places I've been, all the things I've seen
Lead me back to the one who showed me how to

You ain't making me better
Then you just bring me
Down, down, down
Down, down, down

You ain't making me better
Then you just bring me
Down, down, down
Down, down, down, I walk alone
