

All day

Isaac Delusion

All day I call the night
So I
Keep dreams in a jar
Butterflies can be tamed
Open up
Wish them well
White light creatures
Gathering all around

And if you lose control
While I spin into
Won't let you fall
Next time you'll know

Save your tears
You told me half the word
(Say you'll understand me)
To sit on sleepless nights
(Ah-ah)
You sent me to the moon
And obviously forgot
(To) be there

And if you lose control
While I spin into
Won't let you fall
Next time you'll know
(Next time)

And if you lose control
While I spin into
Won't let you fall
Won't let you fall

Next time (next time)
You'll know (you'll know)

I won't let you fall again
I won't let you fall again

Be there

And if you lose control
And if you lose control
You lose control
Next time
You'll know
Wont let you fall
You lose control
