

Emily  
Are you trying to hurt me?  
With empathy, illogically  
Don't you see?  
How it works on me  
I guarantee  
Must be biology

Is it another of your tricks to stab me in the back  
To make me drop my guard and on this  
That the guy you fancy  
Is bleeding just like me

Is it your personal way of saying you're sorry  
When you dive the knife deeper inside me  
See the guy you fancy  
Is dying just like me

Emily  
Are you trying to love me?  
See, if you bite me  
Won't be so easy  
Now can't you see?  
How it works on me  
I guarantee  
Must be biology

Is it another of your tricks to stab me in the back  
To make me drop my guard and on this  
That the guy you fancy  
Is bleeding just like me

Is it your personal way of saying you're sorry  
When you dive the knife deeper inside me  
See the guy you fancy  
Is dying just like me
