

If I Fall

Isaac Delusion

Sometimes I fall asleep
And I dive deep in the sky
And I dive deep in the sky

It brings me to summertime
With the daylight in my eyes
With the daylight in my eyes

I had a dream last night
And I saw you shine and rise
And I saw you shine and rise

Illuminate the time
With the light inside your heart
With the light inside your heart

What if I fall
Would you catch me if I fall
Would you ground me if I fall
What if I fall
Would you be there if I fall
Would you be there if I fall
What if I fall
Would you catch me if I fall
Would you grab me if I fall

Give me some of that gypsy livin'
Shakin' on my soul on bad food or feelin'
Cause I need a bite more
Yeah I need an end card
Now I feel on it's only memories
Gods and hobos kings and heroes
Are the city about never both
Are the city about never both

Home is where the wind goes
Home is where the wind blows
Home is where the wind goes
Home is where the wind blows

Give me some of that gipsy livin'
Shakin' on my soul on bad food or feelin'
Cause I need a bite more
Yeah I need an end card
Now I earn from this long gone ecstasy
Gods and hobos kings and heroes
Of the city that never both
Of the city that never both

Home is where the wind blows
Home is where the wind goes
Home is where the wind goes
Home is where the wind blows
