

# Make It

Isaac Delusion

Holy Spirit  
Holy flame  
Of all the things, you won't remain  
Tame the shame  
Paint the pain  
Clap until you go insane  
Nothing serious  
Nothing vain  
Why are you standing next to me?  
You and my abilities  
Making electricity  
Late night fantasy  
Keep on going endlessly  
You are not supposed to be  
On this photograph with me  
Everything I cannot see  
Is my own fucked up symphony  
All I need is decency  
And seven minutes to break free  
  
And seven minutes to break free  
And seven minutes to break free

Holy Spirit  
Holy flame  
Of all the things, you won't remain  
Tame the shame  
Paint the pain  
Clap until you go insane  
Nothing serious  
Nothing vain  
Why are you standing next to me?  
You and my abilities  
Making electricity

No, I'm not to blame  
(No, you're not to blame)  
You'll never make it if you're not trying  
You'll never make it if you're not trying

Do you know my name?  
(Do you know my name?)  
You'll never make it if you're not trying  
You'll never keep it if you're not crying

Holy Spirit  
Holy flame  
Of all the things, you won't remain  
Tame the shame  
Paint the pain  
Clap until you go insane  
Nothing serious  
Nothing vain  
Why are you standing next to me?  
You and my abilities  
Making electricity  
Late night fantasy

Keep on going endlessly  
You are not supposed to be  
On this photograph with me  
Everything I cannot see  
Is my own fucked up symphony  
All I need is decency  
And seven minutes to break free

All I need is decency  
Seven minutes to break free  
Seven minutes to break free

No, I'm not to blame  
(No, you're not to blame)  
You'll never make it if you're not trying  
You'll never make it if you're not trying

Do you know my name?  
(Do you know my name?)  
You'll never make it if you're not trying  
You'll never keep it if you're not crying

Do you know my name?  
(Do you know my name?)  
You'll never make it if you're not trying  
You'll never keep it if you're not crying
