

Transistors

Isaac Delusion

Sometime, sometimes I feel like they're gonna need education
Flying between us like a sweet sensation
Throwing the weight out, like persan merchant
Create the breach between us, yeah

That's how it goes, that's how it works
Between us
That's how it goes, that's how it works
Between us

Sometimes I feel like have a real connection
Traveling in the air like glowing you to me
Just like our minds keep throwing signals
Our heads like transistors
Keep on receiving yeah

That's how it goes, that's how it works
Between us
That's how it goes, that's how it works
Between us

Sometime, sometimes I feel like they're gonna need education
Flying in the air like a summertiem cool breeze
Throwing the whips out, like girls transmissions
And make the world getting useless in veins, yeah

That's how it goes, that's how it works
Between us
That's how it goes, that's how it works
Between us

Our heads like transistors
Our heads like transistors
Keep on receiving yeah
