

American High

Isaac Dunbar

Here we are again
A whole lotta glitter to shake off
A morning to wake up
A stranger to kick out of my bed

Here we are again
His voice drowning in the subway
A new face
I hope he caught my name

Kinda hard to find it
If you ever find it, I bet you won't
As long as you are your parents baby

Man enough
Letting go
I'm man enough to lose control and dance all night
Dance all night

Far past the earth
Have you heard
I'm man enough to be a party girl and dance all night
The American high

Here we are again
A whole lotta glitter to shake off
A morning to wake up
A stranger to kick out of my bed

Kinda hard to find it
If you ever find it, I bet you won't
As long as you are your parents baby

Man enough
Letting go
I'm man enough to lose control and dance all night
Dance all night

Far past the earth
Have you heard
I'm man enough to be a party girl and dance all night
The American high

You're knocking at my door
But I won't answer, I won't call
Your old sweetheart
Gone wild
Living that, loving that American high

Man enough
Letting go
I'm man enough to lose control and dance all night
Dance all night

Far past the earth
Have you heard
I'm man enough to be a party girl and dance all night

The American high
