

all in my mind

isaac gracie

I'm tryin' to find a reason for love
When I would cross the Styx in a minute or two
Looking for my answers from above
The only home I knew was for me and you
And all the things I'm doing to myself
Digging holes in my brain tryin' to hide away
You know when it gets bad for your health
Things have gotta change 'cause they're not the same

But it's all in my mind, all in my mind
My cold broke mind
It's all in my mind, all in my mind
I don't even get to be alone

Talking ain't as easy when you're down
I know you know I'm tryin' to find the words to say
You told me you would always be around
But now you're gone, I know that we are not okay
I'm so afraid of growing old
So don't you go and leave me on my own
Baby, why the hell you acting so cold?
I guess I'll never know, guess I'll never know

'Cause it's all in my mind, all in my mind
My cold broke mind
It's all in my mind, all in my mind
My cold broke mind
It's all in my mind, all in my mind
My cold broke mind
It's all in my mind, all in my mind
Now I don't even get to be alone

So I'm tryin' to find a reason for love
When I would cross the Styx in a minute or two
I'm looking for my answers from above
The only home I knew was for me and for you

I'm tryin' to find a reason for love
When I would cross the Styx in a minute or two
I'm looking for my answers from above
The only home I knew was for me and for you□
