

Summer

Isaac Hayes

A while we meet the stars
I gave away my heart, now it belongs to Summer
When I met her I was down, now my luck has turned around
I'm grateful to you, Summer
Everything minute she can spare, she will gladly share
Her love in so many ways
I'm glad I took my time 'cause fate has been so kind
She gave her to fill my empty nights and days
Moonlight dancing in her hair
So wonderful, so rare
Making love with Summer
People can't believe their eyes, she's an angel in disguise
The beauty of my Summer
Lazy summer days, can easy turn to bothered days
When the one I love is by my side
While we're laugh and play, my problems go away
She's the best thing to ever come into my life
(Summer, Summer, Summer, Summer)

I see lovers everywhere, but what they have just can't compare
With what I have with Summer
The flame of love is in her eyes like a thousand Julys
It's the passion of my Summer
All her love, she's given me all her love
With a girl like that, there's nothing that I can't do
My inspirations high, just like the clouds in the sky
Summer, you made all my dreams come true
She's the center of my life, and one day she'll be my wife
I really love you Summer
A year after we walked down the aisle
We will we have a girl
And I pray that she looks like Summer
I really love you Summer
