

Beast

Isac Elliot

Here she comes with beauty
It was just a ball
I know she is bad news

Now you need to know
you've never been nothing as but step and stone.

I know you want it but if I was you,
I wouldn't cause what I know she can do
She'll eat your heart run of barbecue

She's a beast
It's too late
She calling (calling)
She's a beast
And you're the bae
She calling
Don't falling in love where the monster shoots to you all
She's a beast
She calling (she calling)

She's a beast

She's a beast

She's a beast

A girl so hot I can't believe, go
She playing on you like an Egon
She evil effering with your ego
Now you're thinking you're the only one
About you gonna wish you never met her
That it only don't go out with lonely gun
but... but...

She's a beast
It's too late
She calling (calling)
She's a beast
And you're the bae
She calling
Don't falling in love where the monster shoots to you all
She's a beast
She calling (she calling)

She's a beast

She's a beast

She's a beast

She's a beast
It's too late
She's a beast
And you're the bae
She's a beast

It's too late
She's a beast
She's a beast
She's a beast

She's a beast

She's a beast

She's a beast
