

No One Else

Isac Elliot

You made a mess and now my heart is an open wound
How do we save something there's nothing left to lose?
And when you're there, don't care
I know it just ain't right
I told myself from the start that I don't need you

But then I fall back under
I get that feeling, back to that summer
No matter what it is you keep me falling under
I get that feeling, feeling for your love
But when I'm alone I know

I, I, I can't see myself with no one else
Can't see myself with no one but you
I, I, I can't see myself with no one else
Can't see myself with no one but you

Round and round we go
Round and round in circles
It's a never ending road
But when I'm alone I know
I, I, I can't see myself with no one else
Can't see myself with no one but you

I spend my days just repeating the same old scene
Uhm, yes
Watch your light slip away
[?]

But then I fall back under
I get that feeling, back to that summer
No matter what it is you keep me falling under
I get that feeling, feeling for your love
But when I'm alone I know

I, I, I can't see myself with no one else
Can't see myself with no one but you
I, I, I can't see myself with no one else
Can't see myself with no one but you

Round and round we go
Round and round in circles
It's a never ending road
But when I'm alone I know
I, I, I can't see myself with no one else
Can't see myself with no one but you

But then I fall back under
I get that feeling, back to that summer
No matter what it is you keep me falling under
I get that feeling, feeling for your love
But when I'm alone...

I, I, I can't see myself with no one else
Can't see myself with no one but you
I, I, I can't see myself with no one else
Can't see myself with no one but you

Round and round we go
Round and round in circles
It's a never ending road
But when I'm alone I know
I, I, I can't see myself with no one else
Can't see myself with no one but you
