

# Somebody Else

Isac Elliot

I lay awake until the morning  
Go through the scenes from back to back  
Still feel the way you felt upon me  
Oh I wish, I wish it could go back to that

I'm changing hearts like sheets, they got no meaning  
And I say I'm okay but I'm staying out late  
Just to escape this feeling, killing me  
I wish I could say that, I wish I could say that

I'm not thinking 'bout your body on somebody else  
Everynight I'm with somebody else  
I'm feeling lonely with somebody else  
With somebody else

Guess I only love to love after all the love's gone  
Only know the right, after all is gone wrong  
Guess I get the feels 'cause I see you move on  
With somebody else

With somebody else  
With somebody else

Nobody knows me like you knew me  
Nobody feels the way you did  
Tryna replace you but I'm breaking  
My heart with every quick fix that I get

I'm changing hearts like sheets, they got no meaning  
And I say I'm okay but I'm staying out late  
Just to escape this feeling, killing me  
I wish I could say that, I wish I could say that

I'm not thinking 'bout your body on somebody else  
Everynight I'm with somebody else  
I'm feeling lonely with somebody else  
With somebody else

Guess I only love to love after all the love's gone  
Only know the right, after all is gone wrong  
Guess I get the feels 'cause I see you move on  
With somebody else

With somebody else  
With somebody else
