

What About Me

Isac Elliot

I know you're thinking that I'm right here where you left me
Patiently waiting for your call
Never imagined that I'd ever tell you no
Cause it's never happened before

If you thought higher of yourself, you'd be up in the clouds
But here, let me help you down
So don't tell me that you wanna start working it out
When it's too late to question now

What about me
What about what I want
Wanna know what I think
And no I didn't think so hard
I feel like I played the fool
And assuming the life
Ain't all about you
Yeah

You think I'm crazy for not wanting you no more
But how can you blame me?
When you're so self righteous and [?] of the lightness
Oh yes, your highness

If you thought higher of yourself, you'd be up in the clouds
But here, let me help you down
So don't tell me that you wanna start working it out
When it's too late to question now

What about me
What about what I want
Wanna know what I think
And no I didn't think so hard
I feel like I played the fool
And assuming the life
Ain't all about you
Yeah, all about you

It's all about you
It's all about you
It's all about you
It's all about you
It's all about you
It's all about you
It's all about you
It's all about you

What about me
What about what I want
Wanna know what I think
And no I didn't think so hard
I feel like I played the fool
And assuming the life
Ain't all about you
Yeah
