

## Worth Something

Isac Elliot

The first sign of trouble  
The last one to know  
Tell yourself it's nothing  
Just kill me slow

Though I know I'm free to go  
Can't find the street, the door is open  
Though I know I'm free to go  
Don't wanna break this holy moment

When the truth is you're still on my mind  
Isn't that worth something? Isn't that worth everything?  
When you know it's real, it's hard to find  
Isn't that worth something? Isn't that worth everything?

Isn't that worth something? Isn't that worth everything?  
Isn't that worth something? Isn't that worth everything?

The words too hard to follow  
The same old mistakes  
What if there another  
But I still see your face

Though I know I'm free to go  
Can't find the street, the door is open  
Though I know I'm free to go  
Don't wanna break this holy moment

When the truth is you're still on my mind  
Isn't that worth something? Isn't that worth everything?  
When you know it's real, it's hard to find  
Isn't that worth something? Isn't that worth everything?

Isn't that worth something? Isn't that worth everything?  
Isn't that worth something? Isn't that worth everything?

I will see what you see  
Isn't that worth something?  
Right now, isn't that worth everything?

Isn't that worth something? Isn't that worth everything?  
Isn't that worth something? Isn't that worth everything?  
Isn't that worth something? Isn't that worth everything?  
Isn't that worth something? Isn't that worth everything?
