

Homo Erected

Isacaarum

Sexual forge, ultimate missing link
Homo sapiens, God's mistake is weak

I'm one... my cock is pumping drill
No rest... No fatigue as I did I can feel
Harmful... I nail you down
Jerk off... I bulldoze your piss ditch and you moan

Homo... non-stop erected

Spread your legs and start to scream
Join my infernal chorus
Angel priapic or stoppering machine
This fuck's so multifarious
If you're tired, fuck, I don't care
There's anal gate to feed
My erected cuntscraper
Don't be fooled it's meat

Open your eyes and try to face my erected truth with grace
No menses will stop me now, there's no problem you can blow

Fuck like engine, fuck like me, if you are dead then start to bleed
Drastically fucked up hole, I'm just cumming from left ball

I'm one... my cock is pumping drill
No rest... No fatigue as I did I can feel
Harmful... I nail you down
Jerk off... I bulldoze your piss ditch and you moan
