

Stormbuggers Fartillery

Isacaarum

Storm of buggers impregnate you just alive
There's no chance to surrender or survive
Warcocks and anal blasters came too near
You are just cannon fodder it's time for fear
Stormbuggers from hell, heavenly expelled
Gas to inseminate, farts to detonate
The choking clouds, and screams of raped
Heterosexuals are driven to be mad
Your rectal membrane is almost to rip
And anal muscles can't believe this shit
Homosexually devastate...
Homosexually devastate...
Homosexually devastate, artillery fartattack
Everything's sodomized, you can't believe that
Fartillery plundered everyone they found
All holes are impregnated with fucking drops of love
Clenched, tangled humans on the fucking battlefield
Sodomized now they lay on that cumming field.
