

The Menses Exorcist

Isacaarum

Unite our forces to clean that world
And castrate the devil's fucking seed
Everything we hate is just twat bleeding
That Satan's curse of true love
Our menses exorcism... to make you free, make you free
Our menses exorcism... to stop you bleed, stop you bleed
Crucify the menstruation, nail towel
And incantate as she bleeds
Menses sucks... it's out of love
Menses sucks... Fuck it up
Our menses exorcism... to make you free, make you free
Our menses exorcism... to stop you bleed, stop you bleed
Your sperm is holy water, fuck saint books
And penis thrust deep inside
Now wait for Devil's escape, cum kills him
He leaves her through the open mouth
Our menses exorcism... to make you free, make you free
Our menses exorcism... to stop you bleed, stop you bleed
Menses exorcism...
