

Yeah, yeah, yeah

What am I supposed outside but get rich?  
Work too hard, but boy, don't floss too hard  
And get yo wig split  
Pray to God  
I heard they got new Gods outside in this bitch  
Barely toddlers got them Purple Hearts  
Outside in this bitch

Yeah, whatever gon' keep your nose dry, my nigga, I'm with it  
I know it got ya froze, my nigga, I feel it  
Some niggas be runnin' away from life  
Some niggas cut off the legs  
If I was you, I'd be dead  
Whatever gon' keep your mind blown, my nigga, maintain the wheel  
My partner know I just came back, see, I done been dead for real  
They mixin' up all of that no name, you know we be scared to chill  
You know we be scared to feel, or anything else but, yeah

Whatever gon' keep my kids safe, my kids full, I'm with it  
I know what's at your nose, my nigga, for really  
Some niggas gon' die in the cardboard  
Some niggas gon' die in the feds

Is that you on the edge?  
Whatever was under the bunk bed, I ain't scared, I'm ready  
They locked the horns with matadors, okay, don't get too heavy  
He shined his fangs and cuban chain, okay, don't get too heavy  
They dug a grave, he came alive, okay, don't get too heavy

What am I supposed outside but get rich?  
Work too hard, but boy, don't floss too hard  
And get yo wig split  
Pray to God  
I heard they got new Gods outside in this bitch
