

# Come Together

Isaiah

We gather round this old campfire, my friend  
A million stars are singing in the sky  
The stories that have carried us to now  
Come together, come together

Standing on this great and sacred land  
Where the eagles fly way up above  
I can feel the world they hold beneath their wings

Come together  
We've come too far to walk away  
Come together  
Been dreaming of a better day  
Sing the song  
Tell the story of this land  
Everybody  
Come together, woah  
Come together, woah

I listen as you tell me of the scars  
Here on the land that holds your blood and tears  
The spirits of the past and mulga spark  
Come together, come together

My people know the endless dance of time  
In the rhythms of the yidaki  
And on the wings of the mighty bunjil we will rise

Come together  
We've come too far to walk away  
Come together  
Been dreaming of a better day  
Sing the song  
Tell the story of this land  
Everybody  
Come together, woah  
Come together, woah

Wana nganha bawili maarumalanhagu  
Wana nganha bawili galibaarrigu  
Wana nganha bawili gabagu

Come together  
We've come too far to walk away  
Come together  
Been dreaming of a better day  
Sing the song  
Tell the story of this land  
Everybody  
Come together  
We've come too far to walk away  
Come together  
Been dreaming of a better day  
Sing the song  
Tell the story of this land  
Everybody  
Come together, woah

Come together, woah
