

When I'm With You

Isaiah

Thursday afternoon
I'm hitting snooze and falling back to bed
Nothing in my head
Never too impressed
But when it comes to you
You're a little different

I'm overthinking
Over stressing
Not a curse
It's a blessing
Prove it to you baby
No I don't want you to be my lesson
This is all I want and I hope that you believe that
You're my biggest dream
In my reality
Baby I'm down for you
No matter what you do

You can waste all my time
Minutes turn to hours
I don't even mind
So give me all your problems
And I'll give you mine
Coz I feel alright

Baby girl you so different
I don't wanna miss my chance
To be with you
Coz you're more than just a beauty
And a little cutie
Energy it shines right through
I wanna be that guy
Let me do you right
Grab you by your waist
Take you out tonight
If you want my lovin girl
I can give it to you girl

You're over thinking
Over stressing
Not a curse
It's a blessing
Prove it to you baby
No I don't want you to be my lesson
This is all I want and I hope that you believe that
You're my biggest dream
In my reality
Baby I'm down for you
No matter what you do

You can waste all my time
Minutes turn to hours
I don't even mind
So give me all your problems
And I'll give you mine
Coz I feel alright

When I'm with you
When I'm with you

Time kept passing by
You're still on my mind
Thought it would go on forever
Now you're by my side
Our worlds intertwine
I feel so alive

You can waste all my time
Minutes turn to hours
I don't even mind
So give me all your problems
And I'll give you mine
Coz I feel alright

You can waste all my time
Minutes turn to hours
I don't even mind
So give me all your problems
And I'll give you mine
Coz I feel alright

You can waste all my time
Minutes turn to hours
I don't even mind
So give me all your problems
And I'll give you mine
Coz I feel alright
When I'm with you
When I'm with you
