

# You

Isaiah

Lately I've been traveling around the world  
Lately I've been talking to some other girls  
Lately I've been trying to get you out my head  
Cause I don't think I want you back inside my bed

Yeah Yeah

I know you thought you'd marry me you'd marry me yeah  
I finally got some clarity some clarity yeah  
I've had some time to think things through  
Someday I'mma find someone to love  
But it won't be you

Thought we could go all the way  
But it's just not you  
You said I don't care at all  
But it's just not true  
One of us had to make a move  
I've had a lot of time to think this through  
A want to find someone to love  
But it's just not you

I know I didn't treat you like I should  
But you did all the kind of shit I never would  
And now you're trying to make up for it  
It's all good  
Telling all your friends you're misunderstood  
Yeah yeah

I know you thought you'd marry me you'd marry me yeah  
I finally got some clarity some clarity yeah  
I've had some time to think things through  
Someday I'mma find someone to love  
But it won't be you

Thought we could go all the way  
But it's just not you  
You said I don't care at all  
But it's just not true  
One of us had to make a move  
I've had a lot of time to think this through  
I want to find someone to love  
But it's just not you

Don't' look back this time  
You'll be happier  
I can't be the one  
That you need me to be

I really hope that someday I'mma find someone to love  
But it won't be you

Thought we could go all the way  
But it's just not you  
You said I don't care at all  
But it's just not true  
One of us had to make a move

I've had a lot of time to think this through  
I want to find someone to love  
But it's just not you

But it's just not you
