

Afloat

Isak Danielson

Mine, be forever mine
Our story was a rush
It was written in wine
Untangle all these roots
Cut off all the vines
And leave the tree to die

Hold me, just hold me
Or leave me to stormy weather
It's easy, believe me
I know you'll find somebody better
You got my love but I don't wanna love anymore
So hold me, just keep me afloat

Hours easily turned to months
And months would turn to years
You never disappear
And I don't wanna know
If something else would grow
No, I don't wanna know

Hold me, just hold me
Or leave me to the stormy weather
It's easy, believe me
I know you'll find somebody better
You got my love but I don't wanna love anymore
So hold me, just keep me afloat
Just keep me afloat

Hold me, just hold me
And leave me to the stormy weather
It's easy, believe me
I know you'll find somebody better
You got my love but I don't wanna love anymore
Hold me, just keep me afloat
