

Bleed Out

Isak Danielson

I've been alone for a while
But only with you in my mind

Lost on empty pages, but the ink is already faded
I've been alone for a while

You know I've tried, but I'm still so cold inside

Bleed with me this time
I've been hurting to find, someone to make it right

I learn so much but lost it all
And when I'm stuck with you I fall

Bleed with me this time, till we bleed out

Since you told me what you felt
I can't think of no one else

Have you lost your way, is it time to say
That you're missing someone else

You know I've tried, but I'm still so cold inside

Bleed with me this time
I've been hurting to find, someone to make it right

I learn so much but lost it all
And when I'm stuck with you I fall

Bleed with me this time, till we bleed out

Oh oh oh oh till we bleed out
Oh oh oh oh

Bleed with me this time
I've been hurting to find, someone to make it right

I learn so much but lost it all
And when I'm stuck with you I fall

Bleed with me this time, till we bleed out

Oh oh oh oh till we bleed out
Oh oh oh oh till we bleed out

Oooh till we bleed out
