Fifty Ways

Isak Danielson

I've been stone cold, I've been rude
I've been happy loving you
I've been anxious, I've been blue
I've been sweet and nervous too

I've been looking for a better now
Just tell me something, show me how
To fall in love, and stay in love
And not to leave before we feel it's over

Fifty ways of falling in love
I don't know who to be, you'll get the best of me
Feeling it below and above
Falling in love to see, what is the best of me?

I am here but I'm not here
I am lonely in your arms
I am warm and I am scared
I'm enchanted by your charm

I've been looking for a better now
Just tell me something, show me how
To fall in love, and stay in love
And not to leave before we feel it's over

Fifty ways of falling in love
I don't know who to be, you'll get the best of me
Feeling it below and above
Falling in love to see, what is the best of me?

Seems like I never ever let it grow
Never let it land, never let it show
Wish I could love as easily as the wind
As the wind blows

Fifty ways of falling in love
I don't know who to be, you'll get the best of me
Feeling it below and above
Falling in love to see, you'll get the best of me

Fifty ways of falling in love
I don't know who to be, you'll get the best of me
Feeling it below and above
I don't know who to be, what is the best of me?
