

Hey Now

Isak Danielson

God, tell me why
Whenever she looks at me
I get colorblind
I'm spendin' my time
Just waiting for her
To give me a final sign

Feels like I have lost it all
It feels like I don't know me anymore

What is good with waiting
I'm right here and singing
Hey now, hey now, singing
Hey now, hey
No more hesitating
I'm right here and singing
Hey now, hey now, singing
Hey now, hey

I need you now
It gets harder and harder
For me to sleep at night
We'll figure it out
As long as you're close to me
I will love you right

Feels like I have lost it all
It feels like I don't know me anymore

What is good with waiting
I'm right here and singing
Hey now, hey now, singing
Hey now, hey
No more hesitating
I'm right here and singing
Hey now, hey now, singing
Hey now, hey

Tell me now before I go
Tell me now before I go
Tell me now before I go
Tell me now, 'cause...

What is good with waiting
I'm right here and singing
Hey now, hey now, singing
Hey now, hey
