

Hold My Hand

Isak Danielson

I've always felt like I'm a drop in your ocean
And when it hurts, you don't see
I pretend what's wrong is right like I'm wasted
So you can get a little closer
You held my hand and let me in to the water
You told me to go deeper but don't you drown
Don't wanna think of all this time like its wasted
So won't you get a little closer

You can hold my hand like you need it
Keep my soul like you want it
Hold my hand, stop wasting it all
You can hold my hand like you need it
Keep my soul like you want it
Hold my hand, stop wasting it all

Don't walk away until you know what I'm feeling
Don't close your eyes until you know it's real
Why can't you keep me in a place where it all feels new
I'm tired of you pushing me away
And now the days are leaving us with a weather
We felt the sunshine you couldn't stay
Wish I knew what I was getting myself into
I'm trying hard to wash it all away

You can hold my hand like you need it
Keep my soul like you want it
Hold my hand, stop wasting it all
You can hold my hand like you need it
Keep my soul like you want it
Hold my hand, stop wasting it all

I hope you keep my beating heart
Feels like I'm falling apart
Keep my beating heart
I hope you keep my beating heart
Feels like you're among the stars
Keep my beating heart

You can hold my hand like you need it
Keep my soul like you want it
Hold my hand, stop wasting it all
You can hold my hand like you need it
Keep my soul like you want it
Hold my hand, stop wasting it all
