You and me again
My heart is in but I don't feel the same
You got tired with my complains
I feel like we're fading
When I walk, I walk alone
Doing what I can to keep your eyes on me
Baby I'm not the right kind of girl
But I know if all I'm living for it's her

I might be alive tonight
I smoked a lot and even if I'm high tonight
I will hold you tight
Being with you is everything in life
I still, I still want you
I still want you
I still want you
In all and two
I still, I still want you
I still want you
I still love you
In all and two

I don't like the way I feel when I'm without you baby
I'm falling and can't hold on
Tell me, is this forever?
When I write, I write to you
All my thoughts and dreams are all for nothing
I know you need your safety more than I
Our love is getting tired
I still, I still want you
I still want you

And even if I'm high tonight
I will hold you tight
Being with you is everything in life
I still, I still want you
I still want you
I still want you
In all and two
I still, I still want you
I still want you
I still love you
In all and two

I don't like the way
