

# Love's Dying

Isak Danielson

You made me feel like I could love again  
Lose my heart to someone else  
I tried hard  
Kept trying

Held me close and made me feel again  
Say you would stay with pretend  
Don't leave  
I've trusted

She was always making me feel whole  
There's gotta be a meaning ohh  
And now it's time we're going home

Love's die, love's dying  
Don't you know our love's die, love's dying  
Time's run, time's running  
Don't you know our time's run, love's dying

She wrote and asked if I was holding out  
Caring for you  
Won't reply  
I am still trying  
Could only dream you feel the same as I  
Baby don't you realize  
I've stayed, I've trusted

She was always making me feel whole  
There's gotta be a meaning ohh  
And now it's time we're going home

Love's die, love's dying  
Don't you know our love's die, love's dying  
Time's run, time's running  
Don't you know our time's run, love's dying

But before it's over  
I wanna feel you near  
I wanna see you clear  
Take it slower  
I wanna keep you here  
Forgotten every fear

Love's die, love's dying  
Don't you know our love's die, love's dying  
Time's run, time's running  
Don't you know our time's run, love's dying

Love's die, love's dying  
Don't you know our love's die, love's dying  
Time's run, time's running  
Don't you know our time's run, love's dying
