

# Nothing Left Behind

Isak Danielson

With my back against the wall  
And my feet back on the ground  
Will I ever let it go  
All my fears of falling down  
When you touch my hand, when you take control  
You're the only one I want  
But then I'm scared to feel the pain  
I walk away, I walk away

Wanna love you  
Like there's nothing left to hide  
Wanna love you  
Till there's nothing left to find  
Till the sun burns out, till the moon comes down  
And my heart runs out of time  
Wanna love you  
Like there's nothing left behind

I would give you all of me  
Tell you all I've ever known  
Every side you'll get to see  
The way I dance when I'm alone  
Are we summer nights, are we always high  
Did I finally lose my mind  
But I'm so scared to feel the pain  
I walk away, I walk away

Wanna love you  
Like there's nothing left to hide  
Wanna love you  
Till there's nothing left to find  
Till the sun burns out, till the moon comes down  
And my heart runs out of time  
Wanna love you  
Like there's nothing left behind

(Like there's nothing left behind)  
(Like there's nothing left behind)

If you walk away, I will never forgive myself  
I keep losing my way, and I know that I'll need your help  
I'll hold onto your heart and just finally give it my all

I wanna love you  
Like there's nothing left behind
