

Playing Love

Isak Danielson

I was not what you were aiming for
I was hoping you could change me even more
You wear me like a scarf that matches your shoes
Your world is a mirror and mine is you

Am I air, am I light
Or just blinded by your side
Am I in, am I out
Or just twilight in your eyes

We're just playing love
And you're playing with love
When you're holding my heart this way
You're just tearing my heart in two

I own the memories of us when you were close
I still lay thinking, can't sleep so I compose
The words that I write helped me figure out what's true
My world's an illusion, my world with you

Am I air am I light
Or just blinded by your side
Am I in, am I out
Or just twilight in your eyes

We're just playing love
And you're playing with love
When you're holding my heart this way
You're just tearing my heart in two

We're just playing love
And you're playing with love
When you're holding my heart this way
You're just tearing my heart in two

Your words make me doubt
I can't figure it out
Where are we right now
I can't let go
I've been following you
You've got me lost too

My words make me doubt
I can't figure it out
Where are we right now
I can't let go
I've been following you
You've got me lost too

We're just playing love
And you're playing with love
When you're holding my heart this way
You're just tearing my heart in two

We're just playing love
You're just playing with love
You're just playing with love

You're just playing with love
You're just playing with love
